VAN ZANDT AWARDED SCHNEIDER ELECTRIC/ FOXBORO MASTER REP CONTRACT

TULSA, OKLAHOMA (January 19, 2021) - Van Zandt Controls is excited to announce the expansion of our partnership with Schneider Electric whereby, Van Zandt Controls is now the new, exclusive manufacturers' rep for Schneider's Instrumentation, SCADA, and Telemetry lines for the Panhandle Region of Texas, NW Arkansas, and the state of Oklahoma. This includes the Foxboro line of pressure and temperature transmitters, Foxboro flow measurement offering; vortex, magnetic flow, and coriolis meters, as well as SCADAPack Smart RTU's, Trio Data Radios, Accutech Wireless Instrumentation, EcoStruxure Geo SCADA Expert SCADA Software. This announcement expands Van Zandt's existing exclusive territory of West Texas, Southeast New Mexico, and South Texas awarded in early 2020.

Larry Richards, President & CEO of Van Zandt states "our entire team is thrilled and honored for the opportunity to represent this premier instrumentation, telemetry and SCADA line. Schneider Electric has an outstanding record of product leadership and "best in class" solutions, offered at a very competitive price point. That combination is exactly what our customers are looking for in this tough, cost focused environment. Combined with our unique service focus and local inventory, we're extremely excited about the overall value proposal we can provide our rapidly growing customer base".
